## PART IV.

## "WATER CLAUSES CONSOLIDATION ACT, 1897."

1. THIS is to certify that "The Cranbrook Electric Light Company, Limited," a company duly incorporated under the provisions of the "Companies Act, 1897," and which has been registered under the "Power Companies' Relief Act, 1902," for the purpose of exercising the rights, powers, privileges and priorities in and by part IV. of the said Act created, granted and conferred, has submitted its undertaking to the Lieutenant-Governor in Council for approval, and that the said undertaking, as shown by the documents and plans filed, has been approved, and that the same is as follows:—

The erection of a dam across the St. Mary's River in a rocky canyon about one mile above the railway bridge upon which the Canadian Pacific Railway

crosses the St. Mary's River, as shown on the plans filed and marked "B"; the erection of a Power-house to be situated at or close to the dam, the water under a 30' head passing through turbine water-wheels in the Power-house, thence through the tail-race into the river again; the erection of all necessary pole lines. The power will be utilised to supply light, heat and power chiefly to the city of Cranbrook and the inhabitants thereof, to operate railways, tramways, saw-mills and other industries of any nature or kind, and to consumers generally of light, heat or power in the Fort Steele Mining Division of East Kootenay.

Eight thousand miner's inches of water are to be presently taken from St. Mary's River, in East Kootenay District; five thousand miner's inches of the said eight thousand miner's inches so to be presently taken stand already recorded in the name of the Company, which record is hereby approved and confirmed, and the intended application of the Company for a further record of three thousand miner's inches, and of such further records not exceeding thirty thousand inches, from and out of the said St. Mary's River, according to the requirements of its business and the extensions to be subsequently undertaken, is approved; provided that such approval shall not be construed as giving the Company any absolute right to such records when applied for.

2. And this is further to certify that the Company proposes to commence its undertaking by the construction of a dam across the St. Mary's River and the necessary excavations and gradings, and by the construction of a Power-house at the site of the dam, and by the erection of poles and stringing of copper or other wires thereon, for the purpose of conveying the electrical energy created by water-wheels at said dam to the City of Cranbrook and its vicinity and intervening points.

3. And this is further to certify that "The Cranbrook Electric Light Company, Limited," shall have duly subscribed, before it commences the construction of its undertaking and work, or exercises any of the powers in that behalf conferred by the "Water Clauses Consolidation Act," 1897," Part IV., five thousand (5,000) shares of one dollar (\$1.00) each.
